| Date          | 03-07-2026                                                |
| TeamID        |                                                           |
| Project Name  | Smart Agricultural Product i on Opt i mi zat i on Engi ne |
| Maximum Marks | 3 Marks                                                   |

### Step 1: Brainstorm and Idea Listing

Each team member lists out as many ideas as possible without judging them at this stage.

| S.No | Team Member | Idea / Suggest i on                                               | Cat e gory        | Group No. |
|------|-------------|-------------------------------------------------------------------|-------------------|-----------|
| 1    | Kapu Ramya  | Crop recommendat i on on based on soi l N,P,K val ues             | ML predi ct i on  | 1         |
| 2    | Kapu Ramya  | Fert i l i zer suggest i on based on soi l defi ci ency           | Advi sory         | 1         |
| 3    | Kapu Ramya  | Seasonal crop pl anni ng usi ng rai nfal l & t emper at ure dat a | Dat a Anakl ysi s | 1         |
| 4    | Kapu Ramya  | Si mpl e fl ask web app for farmer s t o get crop suggest i ons   | Depl oyement      | 1         |
| 5    | Kapu Ramya  | Past at t ack predi ct i on based on humi di ty and crop t ype    | ML predi ct i on  | 1         |
| 6    | Kapu Ramya  | SMS al ert s t o                                                  | Advi sory         | 1         |

## Step 2: Idea Prioritization

Rate each grouped idea on feasibility and importance, then select the final idea(s) to move forward with.

| Group No. | Final Idea                                                    | Feasibility (High/ Medium/ Low) | Importance (High/ Medium/ Low) | Priority | Selected (Yes/ No) |
|-----------|---------------------------------------------------------------|---------------------------------|--------------------------------|----------|--------------------|
| 1         | ML-based crop recommendation using N,P,K, weather & soil data | High                            | High                           | 1        | Yes                |
| 2         | Fertilizer & seasonal crop planning advisory for farmers      | Medium                          | High                           | 2        | No                 |
| 3         | Web app + SMS alerts for crop suggestions & sowing time       | High                            | Medium                         | 3        | No                 |
