### Empathy Map

#### **SKILL WALL**

A SmartBridge Process: Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

|                                                                                                                                                                                                                                 | SAYS |  | THINKS                                                                                                                                                                                                                                                                                               |
